

Science Team Meetings: a wealth of opportunity

- Opportunity for P.I.'s to present their Project Progress and Findings
 - **Identify their research team and collaborators**
 - **Highlight 'newsworthy' items – this is important for the NASA program**
 - **Highlight publications from the research**
 - **Identify data sets generated that will be shared**
- Opportunity for updates on developments in our regional and partner programs and activities
- Opportunity for attendees to provide input to the program on future research directions for the program
- Opportunity for new P.I.'s and Co.I.'s to meet with Program Management
- Opportunity for networking across the LCLUC Research Community
 - New collaborations

This Meeting

- **South and Southeast Asia Regional Initiative (SARI)**
 - ROSES 2015/2016
- **LCLUC Synthesis Projects**
- **Multi-Source Land Imaging (MUSLI)**
- **LCLUC-related NIP, Caucasus and Mountainous Areas, Carbon, Students, and IDS Projects (Posters)**

Talks

Poster Presentations (w. rapid Intros)/Viewing

Discussion sessions

Food and Reception Courtesy of SGT

Summary Meeting Agenda

Tuesday April 3

AM

- Program Updates and Invited Talks
- Discussion

PM

- LCLUC in South Asia
- Poster Introductions and Viewing
- **SGT Sponsored Reception**

Summary Meeting Agenda

Wednesday April 4

AM

- LCLUC in South Asia
- SARI International Linkages and Capacity Building

PM

- SARI Cont'd and Discussion
- LCLUC Synthesis Presentations
- LCLUC Program Future Directions Discussion

Summary Meeting Agenda

Thursday April 5th

AM

- MUSLI (First Round) Final Project Results

PM

- 2017 MUSLI and Landsat Science Team Selections - Rapid Talks
- Discussion on Future Directions for MuSLI/Landsat

- Meeting Summary and Concluding Remarks

(end at 5pm)

PLEASE

**Provide news and up-to-date information
for the LCLUC Web Site**

- **Recent LCLUC-funded publications**
